BOYERTOWN TRAGEDY

Total Death List Now Reaches Hundred and Sixty-Two.

TRAGEDY AWFUL IN EXTENT

Hand of Sorrow Has Touched Almost Every Family in the Pennsylvania Town and the Surrounding Neighborhood—Coroner Investigating.

Boyertown, Pa., Jan. 16—With the opening Wednesday of the four improvised morgues in which lay the bodies of the victims of Monday night's theater holocaust, the inhabitants of this little borough began to realize the awful extent of the tragedy.

The hand of sorrow has touched probably every family in the town and neighboring villages.

Gruesome Scenes.

Where families were not directly affected by the terrible panic and fire through the loss of relatives, they were mourning for lost friends or acquaintances. The gruesome scenes following the disaster bring a shudder to the stoutest heart and many of the thousands who have come as curiosity seekers have gone away declaring they never want to witness another sight like it.

The four buildings used as morgues contain 162 bodies.

Jacob Johnson, who was badly hurt in the mad rush for exit from the burning building, died Wednesday morning. Coroner Trasser is making an investigation preliminary to the official inquest.

"It was the saddest picture I ever looked upon," he said. "No living person can depict the scene. It was simply indescribable. I shall make a thorough investigation leading up to what I consider the most horrible affair that ever occurred in eastern Pennsylvania."

Had a Premonition.

The coroner's attention was called to the fact that oil lamps were used for footlights in the opera house in the place of stationary illumination. He said he would make a thorough investigation. But two members of the cast so far as can be learned were killed. This is due to the precaution taken by Mrs. Della Myer. She had a premonition that something would happen. At a luncheon given to the members of the cast in the town several days ago, she said she feared something. "There ought to be a means of escape," she said. The rear entrance was spoken of and at her suggestion the doors were taken off the hinges so that in case of accident egress could be easily accomplished.

Henry W. Fisher, of Carlisle, Pa., the operator of the calcium lights, which was the original cause of the terrible disaster, made his escape from the burning building, though not without receiving severe burns.

Mr. Fisher said: "The accident to the calcium light was caused by a cap on one of the tanks on the calcium light blowing out. This caused a sharp report and a flash which startled the people in the audience.

"I stuck to my apparatus and finally got the leak repaired and succeeded in quieting the alarmed people. Just as I had them calmed, the foolish action of some frightened person on the stage caused the upsetting of the footlight lamp and the consequent spread of the flames, which nothing could avert. Not until then did I desert my post and seek my own safety in flight."

Many Out-of-Town Victims.

That the victims were not confined to residents of Boyertown was shown by the number of unclaimed teams in the city. Fully forty teams remained uncalled for in the stables on Tuesday and the hostler said they belonged to people residing within a radius of five or six miles of Boyertown, who drove to this place on Monday with their families to witness the production of the "Scottish Reformation." There is no clew to the identity of the owners of a number of the teams.

Bearing Up Bravely.

Boyertown is bearing up bravely under the heavy burden of sorrow which has stricken many homes. Seventeen of the victims resided in one row of houses near the scene of the disaster.

By order of the town burgess all the saloons in the town which were closed at 5 a. m. Tuesday because of disorder among drunken men, will remain closed until further notice.

The majority of the residents are staying in their homes. The few that are walking the streets are doing so out of despair.

Ship Faced Storm; Mate Drowned.

Elizabeth City, N. C., Jan. 16.—The schooner E. R. Daniels, Captain Saunders, arrived in port Tuesday afternoon after a most stormy and perilous voyage of seven days from Wanchez to this city. Coming up Pamlico sound during the severe storm of last Thursday, the captain and mate were knocked overboard. The mate, Allen Gray, of Avon, N. C., was drowned. Captain Saunders clung to the rigging and escaped without serious injury. The mate's body has not yet been recovered.

Third Receiver for Seaboard.

Richmond, Va., Jan. 16.—Edward Carlton Duncan, of Raleigh, N. C., was Tuesday afternoon appointed a receiver of the Seaboard Air Line Railway company by Judges Pritchard, Boyd and Purnell. Mr. Duncan at once qualified, and joined Messrs. Warfield and Williams at a conference, at which Messrs. Untermeyer, Braxton and Byrne, counsel for the receivers, were present. After the conference Messrs. Untermeyer and Byrne left for New York and Mr. Warfield for Baltimore.

Take Issue with Bricklayers.

Detroit, Mich., Jan. 16.—The International Bricklayers and Masons Union of America, which opened its forty-first annual convention here Monday, adopted a resolution asserting jurisdiction over the Tile Layers' union. The tile layers, it is said, have taken issue with the bricklayers, the San Francisco union of the tile layers having voted to deny the jurisdiction claimed by the bricklayers.

Skaters Break Through Ice.

Paris, Jan. 16.—Great excitement was caused here by the breaking of the ice on the lake in the Bois de Boulogne, some thirty young people being precipitated into the water. It was feared at first that many of them were drowned, but after a detachment of firemen had dragged the lake by the aid of searchlights, it was found that only two had been drowned, both bodies being recovered.

TO FIGHT EXTRADITION.

Every Effort Will Be Made to Prevent Extradition of Russians.

New York, Jan. 16.—Every effort will be made by the members of the New York branch of the Russian revolutionary association to prevent the extradition to Russia of Jean Janoff Pouren, who was arrested last week on the complaint of the Russian consul general, charged with a series of robberies and murders in Russia.

Pouren was prominent in the revolutionary movement in Russia and has been a fugitive from that country since 1896, having been in New York for six months.

Members of the revolutionary association here say that the Russian government, fearing another revolutionary movement in Russia, is attempting to gather in all the fugitives from Russia who are prominent in the movement to secure in other countries a fund with which to carry on the work of the party in Russia. They declare that the charges against Pouren are purely political and have arranged to employ counsel and fight against his extradition. It is claimed that the Russian government is particularly anxious to have Pouren returned to Russia, as it is thought through him much information can be gained. It is claimed that if he is returned he will be tortured until he reveals the hiding places of other much wanted fugitives.

A hearing on the application for extradition will be held before a United States commissioner.

SITUATION IS GRAVE

Japanese Politics Are Now at a Serious Climax.

SITUATION ALMOST A PANIC

Resignation of Cabinet and Dissolution of Diet Seems To Be Only Solution of Present Trouble—Immigration Question Not Involved.

Tokio, Jan. 16.—An accurate prediction concerning the probable life of the Maquis Saionji's cabinet is impossible. The inability of the government to avert a climax and the resignation of the ministers of finance and communication has created a situation approaching a political panic. Even those best informed are unable to forecast developments with any degree of certainty.

A consensus of opinion is to the effect that the present cabinet, either with double portfolios or possible additions following the vacant posts in the ministries in the interior and justice, will face the diet which opens on July 22.

Situation Is Very Grave.

An effort is being made to fill these vacancies, but there is a difficulty encountered in securing the consent of statesmen to accept the responsibility under existing circumstances.

The opposition and even the friends of the government are apparently determined to force the government to appeal to the country. With an unpopular budget, the constitutionalists lack nine votes of an actual majority in the lower house.

Reliable authorities think the constitutionalists will refuse to accept the government's financial policy, when the budget is presented.

In this event the cabinet will resign, the diet will be dissolved and the former budget will continue until another cabinet is formed and a new budget passed.

By such a method the constitutionalists may be in a position to appeal to the country, and say they are not responsible for Premier Saionji's mistakes. They can also point to the fact that they repudiated a budget involving increased taxation, the suspension of public works and the unnecessarily heavy expenditures for the army.

Due to Finances?

It is believed that with such a position the constitutionalists will secure a majority at the general elections, and that the cabinet will be formed by Marquis Matsura, the ex-premier, or possibly by Admiral Baron Gobel Yammamoto. The latter, however, improbable.

There is no reason to doubt that the present situation is due entirely to the financial problem. The immigration question is absolutely unaffected, and had nothing to do with hastening a crimax. It is believed on all sides that the immigration questions that exist with America and Canada will be settled amicably. In fact, since the present critical situation developed, the immigration question had been hardly mentioned.

An interesting feature of the situation is the increasing influence of the commercial classes in the policies of Japan.

Fell from Buggy, Broke Neck.

Tampa, Fla., Jan. 16.—John M. Matthews, turpentine operator, clutching at his hat, which had blown off while riding in a buggy on Stemper road, 11 miles from here, lost his balance and fell, landing on his head in the road, breaking his neck. He died almost instantly. Matthews lived at Stemper and had large interests in this section.

Big Secretary Will Not Resign.

Washington, Jan. 16.—Secretary Taft has indicated that he would like to be quoted as saying that there is absolutely no foundation for the rumors that he is to resign from the cabinet. The printed story was to the effect that Secretary Taft would resign and devote his entire attention to his campaign for nomination for presidnt.

BRIGHT ARE THE PROSPECTS.

Industrial Conditions in Georgia and Alabama Promising.

Columbus, Ga., Jan. 16—Reports for the past seven days reflect prosperous and promising industrial conditions in Georgia and Alabama.

Comparatively few manufacturing plants in these two states suspended operations because of the recent financial stringency, but those which did are resuming operations, and, in some instances, with larger forces than before.

Many industrial plants announce that orders are beginning to be received in increasing volume. It is stated semi-officially that the United States Steel corporation is planning even more extensive investments in the Birmingham district. Banks have been declaring dividends of from 8 to 20 per cent. In the cities of Georgia and Alabama, clearing house associations are rapidly retiring the certificates which they issued, and in some of these cities all of the certificates have been recalled. Confidence has been restored. The outlook is not only bright, but there are substantial promises of even greater prosperity upon a substantial basis than that which previously prevailed.

"DRY" FOR SHREVEPORT.

Prohibition Forces Win in the Louisiana City.

Shreveport, La., Jan. 16.—After one of the most strenuous and exciting campaigns on record, Shreveport was carried in favor of prohibition Tuesday.

Immediately on the result becoming known those who led the fight for prohibition launched a campaign for state prohibition, it being their intention to carry the contest to the legislature, which assembles in May.

According to unofficial returns from every precinct in the parish of Caddo, the majority for prohibition was 41. In the city proper there was a majority of 309 against prohibition, but the country precincts overcame this majority. An unusually heavy vote was polled.

It is almost certain that the election will be contested in the court on several grounds, the most important of which is the claim that the warning issued by the campaign comittees on both sides that the negroes would not be permitted to vote was an intimidation of voters and makes the election illegal. Prohibition is to go into effect Jan. 1, 1909.

BRYAN AND TAFT.

Will Undoubtedly Lead the Opposing Forces in 1909.

Washington, Jan. 16.—Bryan and Taft will be the nominees of the democratic and republican parties, according to the views of the representatives in congress.

The members of the lower house, who are supposed to be in closer touch with the people than the august upper body, were polled Tuesday on the subject of their individual preferences for leaders in the national fight which is just being entered upon. More than one-half the republicans who expressed themselves were for the big secretary of war. Nearly two thirds of the democrats were for the Nebraskan.

Struck With Bottle, Eye Put Out.

Savannah, Ga., Jan. 16.—C. H. Dorsett, one of the most prominent business of the city, was assaulted Monday night in the park extension by three men, as he was on his way home. He was struck with a bottle, his eye was put out and he had to be removed to the hospital. Mr. Dorsett is well known throughout the state because of his prominence in Odd Fellowship, having been a number of times representative of Georgia to the supreme lodge.

Financial Crisis Laid to Roosevelt.

Berlin, Jan. 16.—In the course of an interpellation in the reichstag on Tuesday in reference to high rate of discount charged by the imperial bank Count Von Kanitze, conservative, suggested that President Roosevelt's "threats against the trusts" was responsible for the critical financial situation existing today throughout the entire world."

LAWMAKERS GATHER

General Assembly of South Carolina Convenes.

A SESSION OF FORTY DAYS

Governor Ansel's Message Was Read in Both Houses—It Dealt Largely with the Railroad Situation in that State— Prohibition Considered.

Columbia, S. C., Jan. 16.—The South Carolina general assembly convened here Tuesday and will continue in session for forty days.

After the routine business of the opening day, the message of Governor Ansel was read in both houses.

The following reference was made to the railroad situation:

"While other states have had much litigation with reference to railroad passenger rates during the past year, South Carolina has been free from this character of litigation, and I am glad to report to you that in a conference had with the president and other representatives of the Southern railway, they stated to me that on or about the first of April, 1908, they will put on a flat passenger rate of 2½ cents per mile, and will sell mileage books at 2 and 2 1-4 cents per mile in this state. I have a letter to this effect from President Finley, a copy of which I will place in your hands, with a special message on the subject, setting forth their whole plan."

Governor Ansel in his message calls attention to the labor contract law having been declared unconstitutional, and urges the general assembly to pass a measure that will do justice to both landlord and laborer and provide for severe punishment both for landlord and laborer when a contract is violated.

Prohibition, the lien law and the railroads will be the chief topics for discussion at the present session.

SEA ISLAND GROWERS.

Annual Meeting is Held at Valdosta and Officers Selected.

Valdosta, Ga., Jan. 16.—The Sea Island Cotton Growers' association of Georgia and Florida had its annual meeting here Tuesday and among the most important business was the receiving of the report from the committee which has had a discussion with representatives of the Jacksonville board of trade as to a plan for warehousing and holding the cotton crop.

The committee's recommendation, which was unanimously adopted, was as follows: "We recommend the formulation of an incorporation at once of a Sea Island Cotton Warehousing and Holding company, with head quarters in Jacksonville, Fla., with a capital stock of $250,000 with the right to increase it to $2,000,000."

The election of officers resulted as follows for the association for the next year: Harvie Jordan, president; J. T. Price, Alachua, Fla., vice president; P. G. Schnell, secretary; J. Y. Blitch, treasurer.

Boy Is Killed by His Brother.

Valdosta, Ga., Jan. 16.—Lonnie Bass, the nine-year-old son of B. A. Bass, of Ousley, died here of a gunshot wound received accidently at the hands of his eleven-year-old brother, Burs Bass. The oldest boy had the weapon and raised it to shoot at a hawk, but lowered the gun so that it pointed directly at his brother. The weapon was discharged, entering the child's right leg below the knee. When he reached the hospital here he was too weak to undergo an operation and died an hour later.

Murder Puzzles Police.

New York, Jan. 16.—Another murder in Westchester county is puzzling the authorities. The body of Frank Nuzzo, a wealthy young banker, was found beside his wagon in a lonely road near Ardsley Tuesday night. He had been stabbed in the neck, evidently after a fierce fight. He had a large sum of money when he left Ardsley, and that, as well as his watch, was gone when his body was found.

TAMPA COMING ON A SPECIAL CAR

Will Attend Annual Meeting of Federation of Labor in Style.

MANY DELEGATES EXPECTED

They Will Represent Every Branch of Industry, Showing a Fair Representation of the Various Sections of the State—A Fine Program.

The Tampa delegation to the State Federation of Labor, which will be held in this city for three or four days, beginning on the 21st inst., appears to be coming in great style, as Tampa people always do. The Tampa Tribune says that arrangements have been made for a special car, and the Tampa delegates propose to make the trip "in style." This delegation will come over the Atlantic Coast Line, reaching here on the afternoon of January 21.

In referring to the matter, The Tribune says:

"Arrangements have been made by the Tampa delegation to the annual meeting of the State Federation of Labor, which will occur at Gainesville January 21, to make the trip 'in style,' a special car having been secured from the Coast Line for the occasion. The car will be appropriately decorated, and people living along the route will be made to know that Tampa is the biggest and best city in Florida. The car will be decorated next Saturday.

"Will Campbell, of the carpenter's Union, leaves for Gainesville Wednesday, in order to assist in arranging for the convention, and Secretary J. A. Roberts will in all probability leave in advance of the delegation also. The local delegation is regarded as the strongest ever sent to a Florida Federation meeting."

Hundreds of delegates are expected to this convention from every section of the State, representing all branches of labor, and it is expected that this will be one of the most successful meetings the Federation has ever held.

HAWTHORN NOTES.

Hawthorn, Jan. 16.—H. C. Barnett has sold his part of the mercantile business of the firm of Webb & Barnett to A. L. Webb.

F. J. Hammond is again doing business where his store was destroyed some time ago. Mr. Hammond expects to put in a first-class stock of goods.

Miss Grace McGinnes, a popular young lady of the Junior High School, has gone to McIntosh on a visit to her sister.

We are glad to say that Miss Mildred Johnson is well of the mumps, and is again able to take her afternoon drives.

Robt. Baker made a flying trip to Rochelle last Tuesday.

Willie Morrison, a popular young man of Hawthorn, left Sunday morning for Jacksonville.

John Holder has gone to St. Leo to attend college. Mr. Holder will be greatly missed by his many friends.

The many friends of Otto Stock will be glad to know that he is about well of the la grippe.

The Central House is well filled with boarders at present.

The friends of Miss Clara Sharman will be sorry to learn of her illness.

C. F. Morrison, a popular young man, is clerking for A. L. Webb.

Mr. Gay arrived home Wednesday from Rochelle, where he is employed in the mill of Kelley & Son.

Mrs. O. Adolphus left last Thursday for Atlanta, Ga. She has been in Florida on a visit.

Mrs. James Crosby left Thursday for Dunnellon. She has been on a visit to her mother, Mrs. Strange.

The Saragossans.

It is said that the queer, composite race of people that dwell upon the waterlogged hulks of the Saragossa sea, in the mid-Atlantic, have a pretty theory about death. They believe that those to whom the messenger comes when the sun is shining brightly are transported straight away to a heaven of warm fresh water only four feet in depth, in which they may wade and disport themselves to all eternity. On the other hand, those who receive the call of death in hours of darkness must needs endure a probationary period before they can enter into the future life. The Saragossans are in addition firm believers in premonitions, omens and foreordinations.

This woman says Lydia E. Pinkham's Vegetable Compound saved her life. Read her letter.

Mrs. T. C. Willadsen, of Manning, Iowa, writes to Mrs. Pinkham:

"I can truly say that Lydia E. Pinkham's Vegetable Compound saved my life, and I cannot express my gratitude to you in words. For years I suffered with the worst forms of female complaints, continually doctoring and spending lots of money for medicine without help. I wrote you for advice, followed it as directed, and took Lydia E. Pinkham's Vegetable Compound and it has restored me to perfect health. Had it not been for you I should have been in my grave to-day. I wish every suffering woman would try it."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

THE "COUP DE JARNAC."

A French Adage and the Incident Upon Which It Rests.

The "coup de Jarnac" has become a French proverb, and it serves to distinguish a stroke as decisive as unforeseen which intervenes for the settlement of any affair. The adage rests upon an incident in the life of Gui Chabot, Seigneur de Jarnac, a noble of the court of Francis I. The lie passed between him and Le Chateigneraie, the dauphin's favorite. King Francis, however, forbade the duel. At the succession of Henry II. the old quarrel was revived, and the overdue duel was fought on the plain of St. Germain with all the formality of the ancient judicial combats and in the presence of the whole court. Jarnac was weaker and less agile than his adversary, who was one of the noted swordsmen of the time, but he had taken lessons from an Italian bravo. In the duel Jarnac waited for an opening and then dealt La Chateigneraie a heavy and unexpected stroke which hamstrung him. This was in 1447. Ten years later Jarnac was a captain in the defense of St. Quentin. Eventually he met his fate in a duel. But the "coup de Jarnac" is historic in the annals of sword play.—Argonaut.

BEWARE OF PHYSIC.

Only Aggravates Stomach Trouble and Never Cures.

The trouble with most people who have stomach trouble is that they do not like to take the time to get cured; they overeat and then take physic, which simply upsets the stomach and never cures.

While relief follows one or two doses of Mi-o-na stomach tablets, chronic and long-standing cases need at least two or three weeks' treatment before the sick headaches, dizzy spells, bloating, heartburn, constipation, nervousness and other symptoms that directly result from indigestion are banished never to return.

Mi-o-na is entirely different from the ordinary stomach remedies. It is taken before meals, stimulating the secretion of digestive juices and strengthening the stomach so that it can do its proper work.

With every 50-cent box of Mi-o-na J. W. McCollum & Co. give their guarantee to refund the money unless the remedy cures.

To Catch the Train.

A physician says early rising is an error. More frequently it is a necessity.—Louisville Courier-Journal.

"THE POSE OF POWER."

A Doctor Says It Can Only Be Obtained by Carrying the Body Right.

The human body is a machine—a machine in some respects not unlike a watch. If you bend the watch slightly you displace its parts (its organs, if you please), and then the watch will not go aright.

The same is true of man. In his body every organ has its place. If his body is bent some or all of his vital organs are displaced. They cannot perform their work, and the man, like the watch, is out of order.

"How many of us are like that?" Well, in an examination covering several thousand people I found less than one in a hundred who was right. Ninety-nine people out of a hundred have displaced organs.

I may add that I have never found disease in any organ that was habitually carried in its normal place. The organ always becomes displaced before it becomes diseased.

And what is the cause of this universal displacement? In a word, the cause is a bad method of holding the body in standing, in sitting, walking about and lying down. The trunk is merely a flexible, hollow cylinder inside of which the organs are supported, each in its place. When, however, the body is bent and collapsed, as in most people, the organs drop out of their places and are crowded against each other. They are then unable to do their work, and thus they become diseased.

Every case of chronic indigestion which I have ever examined has had a stomach that was hanging from two to five inches lower than its right position—a condition known to medical men as gastroptosis.

And the rare man who holds his body aright in standing, walking or sitting, such a man is always a man of power. Cromwell was a man of this type. So were Napoleon, Washington and Bismarck.

"And how shall I restore my organs to proper position?" asks one of the ninety-nine.

By so developing the body that it is at all times erect, uplifted and expanded. This will draw each organ into the position in which it can do its best work. A glance at the pictures of the men I have mentioned will show you what I mean.

As to practical methods, take the following exercise for five minutes four or five times a day:

Place the feet together, arms at sides, head back, chest up and forward, abdomen in, knees back, weight on balls of feet—"the position of a soldier." Throw the weight as far forward as you can. Hold the position from half to one minute, then relax. Repeat the exercise from six to twelve times.

Add to this reasonable habits of living, and in three months you will have gone far toward gaining the pose of power.—Dr. Latson in Chicago Journal.

Her Poor Memory.

A woman who belonged to an ancient but penniless family married a rich plebeian, but she never forgot the misalliance nor allowed any one else to do so. One day, attended by a servant, she went into a store and gave an order.

"And where shall I send it, madam?" said the shopkeeper.

"Jean," said the woman, turning to her servant, "tell the man your master's name. I never can remember it."

REMARKABLE RECORD MADE IN NORTHWEST

Young Man with New Theory Is Astonishingly Successful in Minneapolis.

The remarkable success that has attended L. T. Cooper during the past year has not been confined to any one locality, but is so widespread that the young man is now a well-known figure in most of the leading cities of the country.

Mr. Cooper believes that the stomach is the foundation for most ill health, and claims that his preparation, by regulating the stomach, is a true specific for most diseases. The following extract from the Tribune of Minneapolis gives an idea of the surprising number of people who are accepting Cooper's theory. The article was one of many that appeared during Cooper's stay in Minneapolis, and is as follows:

"The sale of Cooper's preparation is now phenomenal in this city, and an estimate made today seems to indicate beyond all doubt that it will equal the large figures reported from Pittsburg during the thirty days Mr. Cooper spent in that city.

"During the past twenty-two days Mr. Cooper has been in Minneapolis, the sale of his preparation has averaged about two thousand bottles a day. When the amount of medicine disposed of throughout the state is added to this, the amount will be doubled. Therefore, the young man has sold in twenty-two days eighty-eight thousand bottles of his medicine in the state of Minnesota alone, which is a truly remarkable record.

"During the past week so many hundreds of Minneapolis people have been calling to thank Cooper for the good he has accomplished with his medicine, that it is safe to say that his visit will long be remembered by the sick of the city."

We sell the famous Cooper preparation which has made a similar record to the above wherever introduced.—J. W. McCollum & Co.

BOUGHT FINE FARM.

Hunter & Oliver Purchased Graham Farm, West of Gainesville.

One of the most important transfers of farm property made in this section for some time was the purchase from the First National Bank, as agent, of the famous Graham farm, located about two miles west of the city.

This farm comprises 455 acres of as fertile land as can be found in the State. The entire tract is under fence, but only about 160 acres cleared.

Hunter & Oliver, who are up-to-date people, will start a hog ranch in addition to raising feed for their livery stock. They have already purchased a foundation herd of black Berkshires, and expect to make a good thing from this industry alone.

University Notes.

C. W. Bartleson, Jr., of Jacksonville, entered the University after the holidays. He is a son of the head of the wholesale house of The C. W. Bartleson Co., who formerly resided in Gainesville.

Oak and magnolia trees are being set along the driveways of the University, under the direction of the efficient superintendent of grounds, A. G. Colclough.

A modern irrigation plant is being installed at the Experiment Station garden.

Prof. P. H. Rolfs, superintendent of Farmers' Institutes, is arranging for a grand central meeting in Gainesville on the 5th, 6th and 7th of February. Dr. Soule, president of the Agricultural College of Georgia; Dr. C. A. Cary, superintendent of Farmers' Institutes of Alabama, and Ex-Senator Harris of Texas, the representative of the Shorthorn Breeders' Association, will be present and deliver addresses. A number of prominent and successful stock-raisers, farmers and fruit and vegetable growers of this State will also have places on the program. Earnest efforts will be made to advertise the meeting throughout the State, and a well-attended and enthusiastic gathering is anticipated.

Special Announcement Regarding the National Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

When you buy Lard you get more than you bargain for—It's heavier in your stomach than on the scales

Lard is a foe to digestion. If you had the stomach of an ostrich you could hardly withstand the ravages of lard-soaked pastry. You have probably found this out and already given up the eating of pastry. 'Tis wholly unnecessary! Anyone can eat and digest food cooked with COTTOLENE, the perfect shortening. It is a pure vegetable product, made from the best beef suet and choicest vegetable oil.

When you buy lard you have no protection as to quality—you simply know you are getting LARD—never mind the grade, it's just L-A-R-D. On the other hand, every pail of COTTOLENE in uniform—the product is guaranteed. You take no chances whatever.

In the face of these facts just ask yourself if you can afford to use hog lard when you can get pure, healthful, nutritious COTTOLENE.

Cottolene is Guaranteed We hereby authorize your grocer to refund your money in case you're not pleased after having given COTTOLENE a fair test.

Never Sold in Bulk COTTOLENE is packed in pails with a patent air-tight top, to keep it clean, fresh and wholesome; also to prevent it from absorbing the disagreeable odors of the grocery, such as fish, oil, etc.

AT CATHOLIC CHURCH.

New Side Altars of Handsome Design Are Being Installed.

St. Patrick's Catholic church, of which Father P. J. Lynch is the faithful and efficient pastor, is determined not to be behind the other churches of the city, with the result that he has just received for the church two handsome life-size designs in sculpture, being the Virgin Mary and child, and St. Joseph, which will be installed on either side of the altar.

These valuable pieces, which are very handsome, came from Germany, and are as pretty and perfect pieces of workmanship as were ever seen in this country. Their presence will add greatly to the interior of the church, in which Father Lynch and his congregation take great pride.

Change in Program.

New Orleans, Jan. 16—The proposed trip of the gunboat Paducah up the river to Paducah, Ky., to receive a silver service from that city, has been abandoned, and instead, a committee headed by the mayor is coming to New Orleans from Paducah by river to make the presentation, which is expected to take place Friday afternoon. The Paducah and her sister gunboat, the Dubuque, will remain in this port through the carnival season.

THE DUTTON BANK

THE PASTOR POUNDED.

Rev. T. Z. L. Barr and Family Given Pleasant Surprise.

Editor Sun: On Tuesday night, January 7th, the kind people of Melrose turned out in a large number and surprised their new pastor by giving him a very heavy pounding.

Men, women and children came until our large parsonage was almost crowded, each one bringing some valuable package for the pastor's family. They tried to bring everything that a family could possibly need for the dining-room and kitchen, and a young lady even brought a package of money. A few moments were spent in pleasant conversation, some harmless games were played, a hymn was sung, and prayer was offered that God would make this year a very successful one. The people then returned to their homes, leaving the pastor and his family to enjoy the good things left them.

The pastor's heart is filled with love for those who have so kindly received him, and his earnest prayer is that God may make him a great spiritual Blessing to the entire charge.

Fraternally, T. L. Z. BARR,
Pastor in Charge.

Melrose, Fla., Jan. 16, 1908.

Monkeys and Parrots.

A lung specialist was talking about a famous scientist who had contracted consumption from a lot of consumptive monkeys that he had been experimenting upon.

"This should be a lesson and a warning to us all," he said, "for nothing is more dangerous to the lungs' health than to have a monkey about the house. Practically all monkeys have consumption in its chronic, and it is just as easy to take consumption from a monkey as from a man or woman. It is the same with parrots. They, too, have consumption, and they, too, are most apt to give the disease to those who pet them. As for me, rather than live in the same house with a pet monkey or a pet parrot I would take a cot in the hopeless ward of some consumptives' hospital."—New Orleans Times-Democrat.

"Insects often blush," says a London scientist. If that is true it is to be hoped Boni and Helie are reading all the nice things said about them in the papers just now.

President Roosevelt is trying to keep the Republican party close to the people, we are informed. It has always been kept close enough to "touch them" whenever necessary.

If The Washington Herald keeps on poking fun at Georgia prohibition the country at large may soon send enough virtuous Congressmen to the capital to make Washington wonderfully dry.

George Ade, the Indiana poet and humorist, wants to be a delegate to the Chicago convention in order to cast a vote for Fairbanks. This is the best joke Ade has sprung for a long while.

As showing the general disorganization of Ohio Republicans, General Grosvenor is threatening to bolt the ticket and run independent for Congress, if the primaries are not conducted in accordance with methods that meet his approval.

Many physicians agree that it is more or less dangerous to stop heavy drinking too abruptly. Anyhow, prohibition in less than three weeks old in Georgia, and already a man in Gainesville reports "an alligator-shaped creature, striped with many colors, that fell from the clouds on last Thursday."

There was a great difference in the temperature Thursday morning and the day before, only a light frost being observed by early risers Thursday, whereas on Wednesday occurred the heaviest frost seen here in twenty years. Ice also formed in some places, and altogether the forepart of the day was the coldest of the season. There was little vegetation to be effected, however, but if there is a repetition of the drop in the temperature during the next month much damage will be done.

The office-holding Republicans of Florida have gotten up against the real thing. A strong Foraker movement has arisen up in their midst and is hitting them some solar plexus blows, indicating a determined purpose to capture the State convention to be held in St. Augustine February 6 and to send a Foraker delegation to the national convention. In Nassau county it is claimed that the Foraker sentiment is strong, Fernandina having already selected a solid Foraker delegation to the county convention.—Times-Union.

THE TRIBUNE AND "BIZ."

We cannot help wondering if The Gainesville Sun knew just what it was driving at when it said the other day, "In Duval county candidates are already making formal announcements, illustrating their 'spiels' in the newspapers with pictures of themselves. Discourage the idea in Alachua county." Bless Brother McCreary's guileless soul, those sixteen bold Alachuans who have their hearts fixed on the sheriff's office instead of being discouraged should be trolled after with most fascinating bait and made to understand that there's nothing like copious advertising, cut included, whether the seeker after notoriety and success be preacher, professor, philanthropist or politician. The Sun would do well to take it all back and offer its valuable space for all kinds and conditions of men at so much per. That's biz.—Tampa Tribune.

The Tribune is assured that The Sun knew exactly "what it was driving at," towit: That early announcements of candidates for office in Alachua county should be discouraged, and we think it should be done in every county in the State. Candidates here think the editor should run their announcements for three or four months at the same price he charges for thirty days, and that no more should be paid for publishing the card in a daily and semi-weekly than for a weekly. The Sun gives all candidates due notice that the fee for publishing announcements will be in proportion to the number of lines and length of time same is to be inserted, so the fellow who thinks the "early bird catches the worm" can understand once for all that he will have to pay for his "worms."

A short, snappy campaign is what The Sun wants, Brother Stovall, and the later the primary is called the better it will suit the people of all classes.

A BIG BOOST FOR FLORIDA.

"It is surprising to me that Americans do not boom Florida as the ideal winter resort of the world," said Sir Thomas Dewar, who is at the Hotel Plaza.

"What Florida needs is a corps of competent publicity men in Europe. English people are getting tired of their aged resorts, but they have not yet learned about the beauties of Florida.

"I think if you could get the English people to take up Florida, all America would flock there in February and March. You should have first of all a line of steamships to make a circuit from London to Florida, and returning via the West Indies. Then send your agents to England and to the continent and let them spread the wonders of Florida broadcast. When a man has been there once he will tell his friends about it and he will go again.

"I am on my way to Florida now, and after a few weeks of tarpon fishing I shall go over to Jamaica, and when I get back to England I will be a new man. Palm Beach is my choice of winter resorts today. I am sick of Monte Carlo and the Nile is poison to me. I am sure thousands of people in Europe feel the same way, but they keep on going to the Riviera and other places they are familiar with. If you can once turn the tide toward Florida it will become world famous in a very short while."—New York Telegram.

A FORESTRY CONVENTION.

A convention to discuss the situation and prospects of the forests of the United States will take place in Washington on January 29, under the auspices of the American Forestry Association, which has its headquarters in that city. This body, composed of representative and public spirited citizens in every State of the Union is exerting itself to the utmost to persuade the public and the State and Federal governments to save the forests and thus preserve our national prosperity. Despite the serious situation, public authorities are slow to act, as they often are even in matters of the greatest need. This is largely because the general public fails to realize the need. The Forestry Association therefore urges all who do, to take a hand in this work.

The thing attracting most attention just now is the establishment of National Forests in the Appalachian Mountains of the South and in the White Mountains of New England. An earnest effort is being made to get these from the present Congress, and the meeting on the 29th will take action relative thereto.

Another scarcely less important problem is one connected with State authority, and that is, to modify the tax laws so that taxation will not force the cutting of forests belonging to private owners before they are mature. This is not only a detriment to the owner's interests, but still more it is diminution of the general supply, and thus injurious to the public community as a whole.

BALLARD'S HOREHOUND SYRUP

PERMANENTLY CURES
COUGHS, COLDS, BRONCHITIS, ASTHMA, SORE THROAT, HOARSENESS, WHOOPING COUGH AND CROUP And Prevents CONSUMPTION.

DO NOT DELAY

Until the drain on your system produces permanent disability. The human breathing machinery is a wonderful system of tubes and cells. To have good health it must be kept in good order. A COLD is considered of no importance, yet if it was known by it's proper name of "throat inflammation," or "congestion of the lungs," its dangerous character would be appreciated. When a cold makes its appearance use at once Ballard's Horehound Syrup which will speedily overcome it.
WHOOPING COUGH and CROUP Require Prompt Action. SNOW LINIMENT applied to the throat and chest gives wonderful relief, while Ballard's Horehound Syrup will rapidly stop the violent paroxysms of coughing. IT IS THE ONLY COUGH REMEDY THAT WILL POSITIVELY CURE WHOOPING COUGH AND CROUP.

BEST FOR CHILDREN

Mrs. Maud Adams, Goldthwaite, Tex., writes:—"I have used Ballard's Horehound Syrup and find it the BEST medicine for croup, coughs and colds. My children use it and it is pleasant to take and quickly cures."

The perfect way is to cure the kidneys.

A bad back means sick kidneys.

Neglect it, urinary troubles follow.

Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashley street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time.

JAMES R. RANDALL DEAD.

Was Author of the Poem "Maryland, My Maryland."

Augusta, Ga., Jan. 16.—James Ryder Randall died here Tuesday afternoon shortly after 4 o'clock, after a few hours' serious illness. Several days ago Mr. Randall, who was a devout Catholic, caught cold while attending five o'clock mass on an inclement morning.

Congestion of the lungs resulted, which was the immediate cause of his death.

Mr. Randall was the author of the verses of "Maryland, My Maryland," and a number of other poems.

At the close of the war he joined the staff of the Augusta, Ga., "Constitutionalist," and in 1866 became its editor in chief. Subsequently he held other editorial positions in various parts of the south.

Explosion Destroys Boat.

Mobile, Ala., Jan. 16.—News has been received here of the almost total destruction of the gasoline power boat Hard Times by an explosion at Fairbone, across the bay. Lawrence Winburg, the engineer, was badly burned about the face and body. One cheek was almost torn away. The other members of the crew escaped.

British Steamer Goes Ashore.

St. John, N. F., Jan. 16—The British steamer Tolesby, bound from Galveston, Tex., for Havre, went ashore during a heavy snow storm Monday night at Freshwater Point, Cape Race. It is thought the vessel will be a total loss. The crew is safe.

Is Your Hair Falling Out?

A few hairs here and there are not missed, but it won't be long before they will be leaving in such large quantities that you will regret the fact that you haven't done something to prevent the ultimate end—baldness.

Rexall "93" Hair Tonic promptly stops falling hair, cures dandruff and will stimulate a new growth of hair. It has done so for others. It will do so for you. It is not sticky or gummy; will not thicken on the hair; does not become rancid; has no disagreeable odor; is clean and agreeable to use.

At our store, only fifty cents a bottle.

Satisfaction guaranteed or money refunded.

A REASON

Why we guarantee Rexall Remedies.—We believe that The United Drug Co., the proprietors of the Rexall Remedies, have inaugurated a perfect system of supplying ready-made prescriptions. They make 200 remedies under the trade-name "Rexall." Each remedy is a well-tried recipe of a famous physician who is a specialist in his line.

THE MONEY QUESTION.

An Inquisitive Youngster and an Ingenious Father.

"Papa," began Gunston junior, "when the government of the United States began to coin gold and silver money it was necessary to buy the gold and silver, wasn't it?"

"Yes, my son," replied Gunston senior rather cautiously.

"Of course, papa," resumed the youngster, "you'll be able to tell me where the government got the money to buy the gold and silver."

"Why—er—of course," stammered Gunston senior as he put down the paper and gazed thoughtfully at the boy. "Now, let me understand you. The government wanted to coin money, and in order to do so it was necessary to purchase gold and silver. You want to know where the government got the money to buy the gold and silver?"

"That's right," chuckled Gunston junior gleefully, and a great joy filled his being as he thought of his all important sire struggling with the simple question.

"Why, sonny, the government simply issued dollar bills and bought gold and silver with them. Anything else?"

"Yes," said Gunston junior. "Where did the government get money to buy paper for the dollar bills?"—Harper's Weekly.

An Insidious Danger.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. J. W. McCollum & Co.

An Exception.

The Philosopher—Tell me what a person reads and I can tell you what he is. The Dyspeptic—Not always. There's my wife, for instance. She's always reading a cookery book. The Philosopher (confidently)—Well? The Dyspeptic—But she's no cook!

A Humane Woman.

The Cabman—Gimme your bag, lady, and I'll put it on top of the cab. Mrs. Oatcake (as she gets in)—No; that poor horse of yours has got enough to pull. I'll carry it on my lap.—London Tit-Bits.

GREAT SOURCE OF DANGER.

Moving Picture Machines Likely To Cause Disastrous Fires.

New York, Jan. 16.—While it is now said that the terrible tragedy at Boyerstown, in which nearly 200 lives were lost, was not directly caused by a moving picture machine as at first reported, the report has called attention to the danger in these machines, hundreds of which are in daily and nightly operation in New York and in every other city in the country.

Chief Croker, of the fire department, says that there is great danger of fires from these machines, particularly in the case of the scores of "store shows" which are scattered all over the town.

It is not uncommon for a film to catch fire from the machine and very often the fire department is called out by such a blaze. In some cases a pretense is made of lining the operator's box with asbestos, but this is seldom more than a pretense. In the regular theaters there is practically no danger from the machines, but in the small 5 and 10 cents shows scattered over the city there is a very real danger.

WORKHOUSE OVERCROWDED.

Unprecedented Increase In Vagrancy In New York City.

New York, Jan. 16.—The unprecedented increase in vagrants in New York has caused congestion at the city workhouse on Blackwell's Island and every effort possible is being made to relieve the overcrowding by transferring prisoners sentenced to long terms to the penitentiary and to the Raymond street jail in Brooklyn.

There are today more than 700 women and more than 900 men in the workhouse, most of them serving terms for vagrancy.

Thousands of persons are out of work, and the increase in the number of strangers looking for work because of the closing down of factories in nearby cities have increased the number of vagrants far beyond the usual number even in winter and with the advent of a really cold spell all the city institutions will be crowded to overflowing.

Why

Should your baby suffer? When he is fretful and restless, don't experiment on him and use any old thing your neighbor recommends. Buy a bottle of White's Cream Vermifuge, greatest known worm medicine and cure for children's diseases. It is mild in its action, builds up the system, makes thin, puny babies fat. Mrs. J. C. Smith, Tampa, Fla., writes: "My baby was thin and sickly, could not retain its food and cried all night. I used one bottle of White's Cream Vermifuge and in a few days baby was laughing, happy and well." Sold by W. W. Johnson.

The Alps and Baby Coaches.

"What strikes me most in Switzerland is the baby coach," said a traveler. "Other people are struck there by the huge cow bells, by the woodcarvings, by the stupendous white Alps, but it is the baby coach that takes my eye. On every road, on every path, you see baby coaches. They contain not babies, but bags of flour or fagots or lunches or a young live pig or a goat. The baby coach is universally used in Switzerland as a push-cart, a wise thing. We Americans don't get the worth of our baby coaches. With us as soon as the babe is old enough to walk up goes the coach into the attic. It is done for. But at this stage the career of the Swiss coach may be said only to begin. A long life of usefulness lies before it. In rain and shine, in snow and hail, it will glide by many years sturdily up and down the steep Swiss roads, carrying anything from a young colt to a squashed mountaineer."—New Orleans Times Democrat.

How to Avoid Pneumonia.

You can avoid pneumonia and other serious results from a cold by taking Foley's Honey and Tar. It stops the cough and expels the cold from the system as it is mildly laxative. Refuse any but the genuine in the yellow package. J. W. McCollum & Co.

TWO REMARKABLE CURES OF ECZEMA

Over Twenty-three Years Ago Baby had Severe Attack—Years Later Grandfather Suffered Torments with the Disease—Virulent Sores Developed from Knees to Toes.

BOTH GIVE COMPLETE RECOVERY TO CUTICURA

"In 1884 my grandson, a babe, had an attack of eczema, and after trying the doctors to the extent of heavy bills and an increase of the disease and suffering, I recommended Cuticura and in a few weeks the child was well. He is to-day a strong man and absolutely free from the disease. A few years ago I contracted eczema, and became an intense sufferer. A whole winter passed without once having on shoes, my ankles and nearly from the knees to the toes being covered with virulent sores. I tried practitioners, specialists, dermatologists, etc., to no purpose. My daughter-in-law reminded me of having prescribed Cuticura for my grandson more than twenty years ago. I at once procured the Cuticura Remedies and found immediate improvement and final cure, till to-day, though well along in years, I am as though I had never had that disease. I am well known in the vicinity of Louisville and Cincinnati, and all this could be verified by witnesses. M. W. LaRue, 845 Seventh St., Louisville, Ky., April 23 and May 14, 1907."

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head; the facial disfigurement, as in acne—all demand remedies of extraordinary virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven by testimonials of remarkable cures when many remedies and even physicians have failed. One set is often sufficient to cure.

Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

BRITISH NAVY MYSTERY.

Traditions Regarding the Death of Sir Cloudesley Shovel.

Of the almost complete wreck of a squadron under Sir Cloudesley Shovel on the rocks of the Scilly isles, together with the death of its gallant commander, the greatest seaman of the age, a number of curious traditions are associated both with the events leading up to the catastrophe and the fate of the celebrated admiral.

The outstanding feature of the catastrophe is the mystery of Shovel's death, which will probably never be solved, and the latter turns upon the admiral's emerald ring. One story goes that the body was picked up on the shore by a soldier and his wife and buried by them on Porth Hellick sands. A spot is still shown at Porth Hellick as being the burial place of the admiral, and, according to tradition, grass has never grown upon it. Subsequently the identity of the corpse was discovered. The remains were exhumed and conveyed to London via Plymouth, where they were embalmed. Lady Shovel rewarded the soldier with a pension for life and received from him the ring found on her husband's finger.

Another story is that Paxton, the purser of the Arundel, discovered two St. Mary men quarreling over the possession of a ring. He at once recognized it as Shovel's ring and inquired from which body it had been taken, and when that was found he knew and claimed the body. Lastly, there is the startling narrative of foul play—viz, that many years after the wreck an aged woman confessed to the parish minister on her deathbed that, exhausted with fatigue, one man who had been washed ashore on a hatch reached her hut and that she had murdered him to secure the valuable property on his person. She then produced a splendid emerald ring taken from the finger of her victim and identified as the gift of Lord Berkeley to Shovel.

The responsibility for this story rests upon the admiral's grandson, the Earl of Romney. Modern research reports rather in favor of the murder theory. The ring was eventually recovered, and altered into the form of a locket and set with diamonds. It is a precious relic of the Berkeley family.

The theory as to how it passed into the possession of the family of the original donor is that Lady Shovel received it from the murderess, as stated, and bequeathed it at her death to Lord Berkeley. Several old works of reference contain the baseless story that Lady Shovel was aboard the Association and was drowned along with her husband. By the way, her ladyship's ghost is supposed to walk at midnight in the avenue of May place, Dartford, Kent, once the home of the Shovels.—London Globe.

L CARRY NAME OF DEITY.

ure that Was Missing from Michi. gan's Old Constitution.

nsing, Mich., Jan. 16—Present in- tions are that the constitution of state of Michigan will carry the e of the deity in its preamble, ature that was missing from the old stitution.

he preamble of the old constitution ely says:

The people of the state of Michi. do ordain this constitution."

he constitutional convention now session here has passed on its first ding the following preamble introced by Delegate Craner, of Kent unty:

"The people of the state of Michin are grateful to the Almighty God the blessings of freedom and earnly desiring to secure these blessgs undiminished to our posterity, do dain this constitution."

From Different Viewpoints.

Some years ago a party of American ravelers, journeying leisurely up the ile, expressed a desire to celebrate Washington's birthday in some appropriate manner. Their chef accordingly prepared a great frosted cake, upon which he executed in confectionery a presentation of George Washington fter having familiarized himself with he life and achievements of his subject. As represented in sugar, Washington wore a turban on his head and a great sash across his breast, he was moking a long pipe and before him a horus of dancing girls were performing. This was the way the greatness f George Washington looked to the Arab chef.

In China many amusing instances of a similar kind may be found. "Pilgrim's Progress" as recently translated and illustrated by native artists shows Christian with a long pigtail, the dungeon of Giant Despair as the familiar wooden cage of Chinese criminals, while the angels are arrayed in the latest productions of Peking dressmakers.

A Chinese publication once described Americans as "living for months without eating a mouthful of rice" and never enjoying themselves by "sitting quietly on their ancestors' graves; but, instead, jumping around and kicking a ball as if paid for it."—Pittsburg Post.

Napoleon and His Snuff.

In the late thirties and early forties of the last century a favorite spectacular play at Astley's in London was "The Battle of Waterloo," in which an actor named Gomersal gained renown as Napoleon Bonaparte. His imitation of the emperor was so lifelike that the great Duke of Wellington invited him to Apsley House, and the interview affords an amusing illustration of the actor's close conscientiousness in attention to the most minute detail. After complimenting his guest the duke remarked:

"I observe, Mr. Gomersal, that you do not use a snuffbox in the part, but make the emperor take his snuff loose from his waistcoat pocket. Permit me to enable you to supply the omission," and his grace presented the actor with a very handsome silver "tabatiere."

Gomersal pocketed the casket and stomached the criticism in silence, but when he reached home he wrote to the conqueror of Waterloo and respectfully pointed out that the omission was of set purpose and absolutely true to history, "Boney" being in the habit of dispensing with a snuffbox and taking the powder loose from his waistcoat pocket, which he had made lined with chamois leather for that purpose.

They Don't Like Funerals.

"If you want to know just how sensitive some Washington folks are, listen to the reasons some of our tenants give for canceling their leases," said a renting agent. "Here are the complaints from five families who want to move because they live on 'funeral streets.' A lot of people, it seems, are sensitive about that. There are certain streets in town—those near churches where many funerals are held and those leading to the various cemeteries—which are usually traveled by funeral parties. Houses in those streets are becoming a poor investment. There is more moving from those houses than from any others we have anything to do with, and generally the movers give as the reason for their dissatisfaction the fact that the sight of so many hearses gets on their nerves."—Washington Star.

Instincts of a Woman.

A little girl who had for some time wanted a dog was taken very ill. One day when much better she told her mother of her desire and begged her to ask her grandpa to buy her one. The mother answered that grandpa did not like dogs and probably would not be willing to buy one. Then, seeing the little invalid look sadly disappointed, she said, "Well, wait till you get well, my dear, then we will see."

"Oh, no," answered the child, whose few years had taught her some wisdom. "The more sick I am the more likely he will be to buy it for me."—Exchange.

THE HORSE WON.

Beat the First Locomotive on the B. and O. Road.

The first locomotive on the Baltimore and Ohio had sails attached. So did the cars. These sails were hoisted when the wind was in the right direction so as to help the locomotive.

The rivalry between the railroads using locomotives and those using horses was very bitter. In August, 1830, an actual trial of speed was held between a horse and one of the pioneer locomotives, which did not result in favor of the locomotive. The race was on the Baltimore and Ohio, the locomotive being one built by Peter Cooper, who also acted as engineer.

The horse, a gallant gray, was in the habit of pulling a car on a track parallel to that used by the locomotive. At first the gray had the better of the race, but when he was a quarter of a mile ahead Mr. Cooper succeeded in getting up enough steam to pass the horse amid terrific applause.

At that moment a band slipped from a pulley, and, "though Mr. Cooper lacerated his hands trying to replace it, the engine stopped and the horse passed it and came in the winner."—Van Norden Magazine.

Hoarding.

Hoarding is not only an economic mistake, but an economic crime as well. It is, in fact, a survival of the evil days of maladministration. It comes down to us from the time when nearly all governments were conquerors which considered themselves entitled to plunder their subjects. Thus hoarding is founded upon distrust of the government.—Statesman, Calcutta.

TESTING METHODS

A test as to the value of newspaper advertising over other methods was made a year ago by the great publishing house of Harper & Bros. Two books were selected, one by a well known popular author and the other by an unknown writer. The latter was selected for the newspaper advertising and the other for the usual channels.

With equal expenditure the work advertised in the newspapers outstripped the other in sales by 200,000 copies.

The result was a complete surprise and established the fact that readers go to the newspapers for information with regard to books as well as with regard to most other matters.—National Printer-Journalist.

The best advertising medium for any merchant is the local paper which goes into the homes of the people in this paper does.

THERE IS NO SECRET

About Our Cod Liver Preparation, Vinol.

So many patent medicines and advertised cures are now offered to the public that we want to call the special attention of the people of Gainesville to the fact that Vinol is not in any sense a secret or patent medicine.

For centuries medical men the world over have recognized the great tonic and curative elements contained in the cod's liver, but how to extract these medicinal elements from the useless and repulsive oil which enveloped them has been the problem hitherto unsolved.

This was finally accomplished by two eminent French chemists, and the result is Vinol, a delicious modern cod liver preparation without oil, made by a scientific, extractive and concentrating process from fresh cods' livers, thus combining with peptonate of iron all the medicinal, healing, body-building elements of cod liver oil, but no oil.

As a body builder and strength-creator for old people, delicate children, weak, run-down persons, after sickness and for Chronic Coughs, Colds, Bronchitis, and all throat and lung troubles, Vinol is unexcelled. Try it on our offer to return money if it fails to give satisfaction. W. M. Johnson, Druggist, Gainesville, Florida.

Do you eat oranges? If so call at Reeder's store, West Union street. 500 dozen for sale at 15 cents per dozen; two dozen for 25 cents; one cent each by the hundred.

Inquire of those who have been served by Dr. Frye, the eye-sight specialist, and then you will be anxious for a pair of his glasses before it is too late. Room 23, Brown House.

Mr. and Mrs. F. M. Smith of Perry spent yesterday with friends in this city. Mr. Smith had an opportunity of looking about the city, and says he was greatly pleased with what he saw.

E. J. Whitehead and J. A. Remmel of Melrose were in town yesterday and made The Sun a pleasant call. Mr. Whitehead is an old newspaper man and always feels at home in a printing office.

L. C. Lynch, Grand Chancellor of the Knights of Pythias, L. J. Burkhim, [illegible] Manasse and Dr. J. H. Colson, all enthusiastic Knights, attended the district meeting at Waldo Wednesday, and all report a good time.

Strayed, from my farm west of Alachua, one black mule mare, heavy built, weight about 1,000 pounds; also one horse mule, slender built, weight about 1,000 pounds. Notify J. R. Williams, Alachua, and receive reward.

Among the prominent visitors to this city yesterday was T. E. King, the clever and successful traveling freight agent of the Southern railway, who makes his headquarters in Jacksonville. Mr. King visits this territory at regular intervals in the interest of his line.

Hon. Shields Warren has returned from his home at Apalachicola, where he has been with his good wife for the past week or ten days. Mr. Warren was compelled to return on account of duties in the land office here, but his wife will remain for a few days longer with her parents, Judge and Mrs. Johnston.

The ladies of the Catholic church had a delightful meeting at the home of Mrs. J. W. McCollum Thursday afternoon, the purpose being to arrange for raising subscriptions for candles for the church for the coming year. The meeting proved quite successful, as the matter of raising funds was settled without difficulty.

C. W. Wells of Alachua was in the city yesterday. Mr. Wells, who is one of the leading farmers of the county, has just finished killing hogs, taking advantage of the cool weather. He has killed twenty-five head, all fat and fine, and has yet 125 in the field. Mr. Wells believes in good hogs, and his foundation herd is among the best and healthiest in the country.

Mrs. E. C. Taylor and Luther Lamb, who have been here for the past few weeks from Brunswick, Ga., on a visit to relatives, have returned to their home. While here they also took advantage of a trip to the wilds of the hammocks, in the Hickman section, where they were the guests of W. T. Waters, who owns a place at Hickman. The party enjoyed the trip in the woods very much, and were delighted at their success in hunting.

Attention, Stonewall Camp—You are respectfully invited by the Kirby Smith Chapter to attend a musicale at the opera house tonight to commemorate General R. E. Lee's birthday. John C. McGrew, Adjt. Stonewall Camp.

B. W. Waits of Hawthorn was a welcome visitor to The Sun office yesterday, renewing his subscription for another year. Mr. Waits has been a regular subscriber to this paper since its first issue, and has never been in arrears for more than three months at any one time during the past quarter of a century.

Hon. A. L. Humphries, a prominent attorney of Live Oak, was among those who spent yesterday in this city. Col. Humphries came on professional business, but took occasion to make some observations and declared that we were keeping up with his own town in the line of "getting ahead," which was, he said, the best compliment he could pay the city and its people.

William Price, who operates a cannery near Melrose, was in town yesterday and made The Sun an agreeable call, renewing his subscription. Mr. Price puts up as nice canned goods as can be obtained anywhere in the country, his peaches and tomatoes being especially fine. The peach crop was short last year, however, and his supply was long since exhausted.

R. A. Becker, after several days spent in this city with his family, left for New York yesterday, where he will resume his run as mate on the Ward Line steamers between New York and Mexican points. Mr. Becker has been connected with the Ward Line for some time, and holds a most responsible position, being the first mate, second in command of the ship.

Remember the musicale at the opera house tonight under the auspices of Kirby Smith Chapter, U. D. C., to commemorate the birthday of Gen. R. E. Lee. A small admission fee—25 cents—will be charged, to be devoted to the benefit of the Old Soldiers' Home and the University scholarship. Tickets can be obtained at the store of Phillip Miller or W. W. Avera.

J. R. Moorehead of Ocala, county surveyor of Marion county, and one of the cleverest citizens of that county, was in town on business yesterday. Mr. Moorehead, who was for a long time connected with the Florida State Troops, is well known throughout this section, and his friends are always glad to see him for the "fun" he used to afford them in the annual camps, being one of the most original men in camp.

The sale of unredeemed goods which have accumulated in the offices of the Southern Express Company, commonly known as the "Old Hoss Sale," will take place in this city on February 15th. A list of these articles will be found in today's Sun, and the same is well worth your careful persual. We have known some valuable articles to be bought for a "song" at these sales. Look over the list and make a note of what you desire to bid on.

THE DISTRICT MEETING.

Knights of Waldo Had a Big Time on Wednesday Evening.

The district meeting of the Knights of Pythias, which was held at Waldo Wednesday evening, was well attended, and those who were present expressed themselves as being well pleased with the meeting and all that transpired.

The meeting was presided over by Geo. P. Morris, District Deputy Grand Chancellor, who presided with his usual good grace. There was no work, but many points of interest to the order were discussed, after which those present were invited to supper, which was greatly enjoyed.

This meeting proved a most enjoyable one. Mr. Morris seemed full of life and energy, and all the delegates seemed to be with him.
